## New Political Party Called HTC.

The Aruban community was in surprised when a new political party called HTC ( Hubentud Treciendo Cambio ) popped up. The youths are fed-up with the same old same old political parties, so they decided to start their own, their intended goal is to make a list full of candidates from the ages of 18 to 30 years old. Once you come with something new, there is always a fight from those who are blindly loyal to one party from the time they can read, this was obvious with all the negative comments they received when they announced their launch. Go for it guys, only the brave will survive.

## Prins Bernard School Renovating.
